ALBUQUERQUE ————— NEW MEXICO

FRIDAY MORNING, NOVEMBER 24, 1905.

The Same Old Way

FROM an exchange which probably knows whereof it speaks we learn that the sultan of Turkey has been stirring up the Syrian colony of New York for the purpose of demonstrating to the American population that these people are unruly and require the use of the strong hand in Turkey to keep them under control. The logic of this defense of the troubles in the Syrian colony is not so apparent when one takes time to consider that the sultan could not stir up the colony unless it was stirrable, even though that wily monarch has adopted an admirable plan to provoke disorders. It is charged that he has sent spies to the colony, many of whom are beautiful women, who are calculated to provoke the younger element of the Syrian colony to walk forth with hatchet and revolver to seek some victim to propitiate the wrath of the beautiful spy. Though the operations of these Circassians are said to be confined to the younger Syrians, beautiful women have not been unknown to turn the heads of middle aged men and even the man whose locks are frosted. If this charge against the sultan be true, says the authority from which we have quoted, he has shown diplomatic talent of the first order, and he is fully entitled to the success which has attended his efforts. The quarrel among the Syrians has reached the point where a reverend bishop of the Syrian church has offered a reward for the head of a leader of the opposition faction, and there is a certainty of bloodshed whenever the factions meet. It is undoubtedly unfortunate that pretty women should be able to stir up trouble among men, but since the beginning that has been the case, and it is likely to remain so until the end. Even here at home, women who are not pretty at all, and not even tolerable without paint and fixings, are able to stir up more or less trouble for the grave and reverend fathers of the burg—so, in the words of Mr. Tweed, "What are you going to do about it?"

Doesn't Love Us

IT IS EVERY DAY becoming more apparent that Mr. Murphy—not Pat, but Mr. Murphy the proprietor of Arizona—is not in love with the Morning Journal, or he would not allow his papers to say so many naughty things about us, which are not true. For example, there is the Phoenix Republican, in its issue of the 20th inst., which violates its time-honored rule, and expresses a positive opinion upon a current topic which opinion is to the effect that the Morning Journal has misrepresented the strength of the statehood sentiment in this territory and also in Arizona. Now, if that is not a deliberate inaccuracy, it is a very great mistake. We have not exaggerated the strength of the statehood sentiment among the people of New Mexico or Arizona. We have admitted all the time that the office-holders—the territorial office-holders, we mean—of New Mexico, and the corporate interests of both territories, were generally opposed to statehood, and for well known personal reasons, chief among which is the fact that under joint statehood the one class would lose their jobs, and the other class would have to pay taxes like other people, while now they do not. Mr. Murphy, who practically owns the territory of Arizona, by owning its newspapers, is radically opposed to jointure for the reason above stated, and that is not at all strange; it is perfectly natural for a man to look out for No. 1—indeed, St. Paul says the man who fails to do it is worse than an infidel, but Mr. Murphy is a St. Paul man to excess, and is trying to compromise the best interests of all the people of Arizona, to augment the dividends of No. 1, which is Mr. Murphy—and of course his newspapers stand with him.

In its zeal to injure the cause of statehood the Republican charges the Morning Journal with having wrongly quoted Senator Clark of Montana, in an interview some time ago. But the public may rest assured that Mr. Clark said just what the Morning Journal reported him as having said. The senator's memory is so well trained that he has no difficulty in forgetting anything that he doesn't want to remember—but it would seem to be more discreet on Mr. Clark's part to confine his attention to the state which he owns up to in the northwest, without trying to butt in on Mr. Murphy's preserves.

And then there is Funston, of the Cocoonino Sun. The Republican solemnly assures us that Funston has "disentangled himself from the combination." But we didn't know there was any "combination" in Arizona except the anti-combine, for we have been assured so many times and so positively by Mr. Murphy's papers, that absolutely everybody in Arizona was against statehood with New Mexico, and we did not suppose there was enough statehood material in that territory to form a combination, for Funston to become entangled in, unless Mr. Murphy's papers were trying to fool the public. But possibly Funston did somehow become entangled and has disentangled himself—and it would be interesting to have Mr. Murphy tell the public how much it cost.

But when the Republican drops pretended facts, and begins to indulge in humor, we appreciate its efforts. For instance, when it pretends to disprove what the Morning Journal says about the statehood situation in Albuquerque by quoting from the New Mexican to the effect that our people are all against jointure. That is particularly good in view of the fact that within the past few days the New Mexican has thrown up the sponge, and is now begging the statehood people to give the little a chance, by suspending operations for three years! The Republican may be assured that all the people of New Mexico ask of congress in the joint statehood matter is a chance to express their sentiments at the polls—and we are not afraid to trust the people of Arizona on the same issue in the same way, Mr. Murphy and his papers to the contrary notwithstanding.

THE spectacle presented by the Hon. Alton Brooks Parker as an advocate of government by technicalities, rather than by justice, cannot fail to edify those who contemplate it. When one recalls the righteous indignation with which Judge Parker contemplated the possibility of the ballot being debauched in an election in which he himself was a candidate, and now beholds him as an attorney for the methods employed by Tammany hall in New York, one cannot but marvel over the flexibility of the legal conscience.—Charleston (S. C.) News and Courier.

IF our three insurance companies had been insuring reputations instead of lives during the past few years, it could not have been said, as it can be said now, that they are solvent.—Wall Street Journal.

SENATOR PENROSE, in joining the Pennsylvania reformers, should be made to sit on the penitents' bench a while. Those post-election conversations are too sudden.—Springfield Republican.

PRESIDENT ROOSEVELT fired a boiler before he left the West Virginia. It is not stated what the boiler had been caught at.—Chicago Journal.

PRESIDENT McALL says that there are two sides to the insurance business, but he seems to hate awfully to show the inside.—Atlanta Journal.

The Opie has an editorial on the "Right for Free Hides." The Free fight for Hides is now due for discussion.

The Evening Citizen says "The tenderloin should be maintained." But then no one is surprised at the Citizen any more.

Alfonso's choice of a wife has displeased the pope. But Alfonso has generally shown a disposition to please himself.

"He jes' died all at once unanimous," said a South Carolina negro, denouncing the demise of a friend. That is Miguel's case in a nutshell.

A San Francisco paper tells of a railroad conductor who won \$150,000 on the races. If he was a Santa Fe conductor the inference is that they were slow races.

Alfonso of Spain tried to make an ascent in a balloon the other day. This is not the first time the erratic young ruler has shown a disposition to go straight up.

Prince Louis of Battenberg has gained a little useful experience amid the gay round of festivities. A New York dentist held up his Royal Highness for an even thousand for filling four teeth.

The emperor of Korea should be enrolled among the ranks of the Underworld. After his ministers decided to accept the Japs' demands the emperor gave orders that they should all be "assassinated."

Burglars now-a-days have lost all sense of decency. A poor sailor was robbed of all his raiment in San Francisco, had to signal a hack with his undershirt and rode to police headquarters in a bare.

The conversion of one Jim Sing to the cause of joint statehood has through the members of the New Mexico Plutocracy society into convulsions. But it is tough to have a Chinaman show himself more intelligent than yourself.

"The allies of New Mexico hold a Gablest" says the Tucson Citizen in its attempt to disparage the enthusiastic mass meeting for joint statehood in the old pueblo. And a few days ago we were hearing that New Mexico is not in favor of joint statehood. Now just where are the allies "at?"

Editor Journal: Can you tell me what the Evening Citizen means by "The Aftermath," which it refers to so often in its editorial columns. Is it a joke? And what does it mean?

Answer.—It refers to a weekly publication known as the Advertiser with which the other weekly publication on the corner of Paradise alley has been having a dispute as to which prints the news first. Yes, it is a joke, and if you don't know what it means you are no better off than the rest of the people.
